# FRAMES

**Standard Screen Supply also supplies aluminum frames to the industry. We have the following sizes available and are continuously expanding our line.**

**Standard aluminum frames have many outstanding advantages:**

- u Prestretched and ready to go
- u No need to buy expensive stretching equipment
- u . No moisture or warping problems
- u Very lightweight
- u Stretched pneumatically with our precision woven cloth
- u Much lower in cost than retensionable; aluminum frames are easily restretched

Sizes presently available and stretched  
with your choice of fabric  
suited to your specific requirements  
(Sizes are measured from outside dimensions.)

**18 x 20** inches

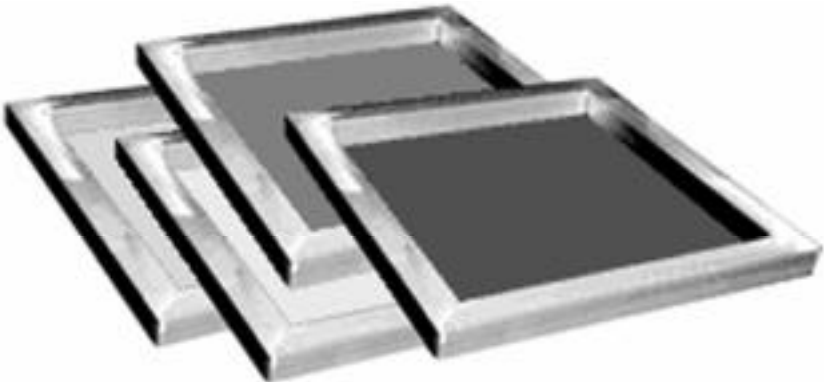

**21 x 21** inches

**20 x 24** inches

**21 x 27** inches

**23 x 31** inches

**25 x 36** inches

# SCREEN MAKING SERVICES

## SCREEN STRETCHING SERVICE

In recent years, screen printing meshes have been developed to withstand increasingly high tensions. The low elongation meshes allow us to stretch any frame so that you maintain complete accuracy.

Standard Screen Supply Corporation now manufactures high-tech frames made from aluminum and kiln-dried woods. The manufacture of these frames with the aid of a computer permits us to maintain excellent tensions and complete accuracy.

## SCREEN MAKING SERVICE

Standard Screen Supply offers total screen making capability. For over 50 years, we have provided excellent screens to a variety of industries. Our total screen making service includes the following:

- u Fast and courteous stretching and screen making
- u Frames stretched pneumatically
- u Precoated screens
- u Any mesh fabric
- u Computerized typesetting and artwork
- u Color separations
- u Four-color process work
- u Electronic submission of artwork

### ALUMINUM SCREENS

Standard Screen Supply also provides aluminum screens to the industry. In combination with the screen stretching service, the aluminum screens provide an inexpensive alternative to the retensionable screens that are available. The aluminum frames are long-lasting, reusable, moisture-resistant, and warp-free.

## ACTIVE SCREEN PRINTING STENCILS AND FRAMES

### SILKSCREENS MADE TO ORDER

Active Process Supply Co. Inc., a division of Standard Screen Supply Corporation, has been providing high-quality silkscreens for the trade for over 50 years.

With the latest equipment, a fully trained staff, and complete art department, Active Process is your one-stop source for quality screens at affordable prices.

The industries that we serve range from the textile and T-shirt trade to electronics and advertising. Individual printers with short runs are also fully served.

In order to service you properly, before making a screen, please follow these simple instructions:

1. Determine what ink(s) you wish to use. (water base, oil base, fabric, plastisol)
2. What substance will you be printing on? (fabric, paper, plastic, wood, metal, etc.)
3. How many impressions do you wish to make?
4. Send us a film positive or black and white camera ready art. In the case of multicolored printing, we have an art staff capable of doing your color separation for you. Each color area requires a separate screen.
5. Provide information about any unusual circumstances that may affect the use of the screen.

**You may carry in your artwork, film positive, zip disk or CD, or you can email your artwork to us.**

**ALL POPULAR FORMATS FOR PC AND MAC ARE SUPPORTED.**
